### **1. DON'T ALLOW THE U.S. TO ATTACK IRAQ**

- A US attack will be a violation of International Law (UN Charter, Art. 103), **and** a violation of the US Constitution, (Article VI, Clause 2).
- The US is now evaluating the use of **nuclear weapons** to attack Iraq.
- The US administration has failed to make a case that Iraq is a true threat.
- War in Iraq will lead to needless loss of thousands of lives – both Iraqi civilians and US soldiers.
- An attack would set a disastrous, destabilizing precedence in the Middle East.
- An attack will lead to terrorist retaliations around the globe.
- A unilateral attack by the US will undermine the power of the UN, the one institution that offers hope of global peace and cooperation.

### **2. FULLY PURSUE A DIPLOMATIC SOLUTION**

- There is a broad consensus in the world community (including the US) that demands that UN inspectors be allowed enough time to responsibly conduct their mission.
- If weapons of mass destruction are found, the inspectors' job is to disarm. Why, then, go to war? Wouldn't it be better to intensify inspections?
- Effectively direct all UN sanctions toward the government of Iraq; Stop the inhumane punishment of the Iraqi people.
- The cost of continued inspections is negligible compared to the projected \$200 billion cost of attacking Iraq.
- **DO NOT ALLOW** the United States to undermine the basic UN mission of international peace and security.
