

PEACE!

Peace is possible!

- ◆ Public pressure convinced President Bush that he needed to consult the United Nations Security Council and the U.S. Congress before waging war. Let's continue to shape policy.
- ◆ We can support the aspirations of the Iraqi people for democracy without a war that would kill many and further destroy the infrastructure.

Peace is patriotic!

- ◆ It's patriotic to oppose an unnecessary war that would put U.S. service personnel - some of the bravest and most unselfish citizens - at risk of death.
- ◆ War would increase the chance of terrorist attacks on the U.S. Real security demands that we oppose preemptive strikes.
- ◆ Iraq is not tied to the 9-11 attacks. We should not use Iraq as a scapegoat while the real terrorists run free.

Peace is preferable!

- ◆ If Saddam Hussein does have weapons of mass destruction, war is the most likely way to get him to use them.
- ◆ We need that money for education & health care! Let's divert war funds for research in alternative energy sources to free us from dependence on Mideast oil.

Only YOU can promote peace!
